AMENDMENT UNDER 37 C.F.R. § 1.111

Assistant Commissioner for Patents
Washington, D.C. 20231

January 22, 2003

Sir:

In reply to the Official action dated August 22, 2002, please amend the subject application as indicated below.

In the Claims

Please amend claim 1 of the subject application as indicated below:

RECEIVED
JAN 27 2003
TECHNOLOGY CENTER 2800

1. (Once Amended) An intrinsically safe portable device for configuring the operation of a level measurement system, said level measurement system having a wireless communication receiver, said device comprising:

- Al
- (a) an enclosure;
 - (b) an electronic circuit mounted in said enclosure, said electronic circuit including a low voltage power supply and a low power microcontroller for operating at a low voltage level to eliminate the incidence of sparking;
 - (c) a keypad coupled to said electronic circuit; and
 - (d) a wireless transmitter responsive to said electronic circuit and operative to transmit control signals to the wireless communication receiver on the level
